

Girls and Women in STEM

A Panel Discussion

Tuesday, October 20, 5:30 p.m.

Join us for pizza at 5:15 p.m.

Marymount School, 115 East 97th Street

The Community Bots, in partnership with Marymount School, invites you to a panel discussion exploring STEM in middle and high school, as well as college and career pathways. Panelists from various disciplines will share their personal journeys and experiences as role models.

The event will highlight summer programs, internships, and international opportunities, offer practical guidance for families, and inspire girls to confidently pursue STEM possibilities.

This panel will be moderated by Delphine Kanne '28 and Cate Woo '27!
